CAPTAIN'S MESSAGE:

Today's message includes additional safety tips from SF SAFE. For more information see SAFE's website: www.sfsafe.org

Crime Alerts & Safety Tips!

Auto Break-ins - Hopefully you all know not to leave valuables visible in your car. But actually, you should not leave ANYTHING visible in your car. What is not valuable to you may be valuable to someone else. SAFE was recently informed that there has been a rash of auto break-ins in the Civic Center area. Items stolen have included tennis shoes, jackets and other miscellaneous items. It only takes a minute for a thief to break a window and steal something inside. Think about this next time you have to run an errand, even in areas where you think an auto break-in would never occur, and even if you think your errand will just take a few minutes.

Keep doors and trunk of car locked at all times, windows rolled up, sunroof closed;

Park in well-lighted areas if possible

If you need to put items in your trunk, do so before you park - you don't want anyone watching your put your golf clubs, gym bag, or computer in your trunk!

If you see any suspicious activities around a vehicle, or a crime in progress, call 9-1-1

Communicate with not only the police if your car was broken into, but also with your neighbors or the business where the crime occurred so that everyone is aware!

SAFE has a variety of Tips and Brochures on our website, available for download!

Six months ago the 300 block of Precita Avenue started planning its first of four formative meetings. They have had three meetings since, including the 1500 block of Treat Avenue. But before they even had their first meeting, their Block Captain sprang into action on a major concern.

Last year a much needed repaving of Precita Avenue from Folsom to Alabama was completed by the city, covering up cross walks and stop lines. This made the traffic go faster without stopping, creating increased concern for residents along Precita Park. This continued for sometime. Right after the planning meeting, the Block Captain was unsure which department of Public Works should be called. A quick 311 call directed her right to the correct office. The lines were replaced within two weeks. Traffic immediately slowed down and began stopping appropriately. Both the street and park are now safer. All this was accomplished in two weeks before the first formative meeting was held. The group is now working on other concerns and trainings.
